SUMMARY

Information Technology graduate specializing in Software Engineering from **HUTECH University (03/2026)**. Possesses a strong academic foundation in software architectures combined with hands-on experience in **hardware support (IT Helpdesk), system deployment, and Manual Testing** at EMPOWER SC and DXCENTER. Highly adept at operating system setups, network troubleshooting, designing robust test scenarios, and executing manual feature testing to pinpoint functional/UI flaws. A fast learner with outstanding communication skills who is **fully available for a full-time internship and employment**. Eager to support daily operations and work toward a full-time role.

SKILLS

Testing & QA:	Manual Testing, Test Case Design, Functional/Regression Testing, Boundary Value Analysis, Bug Reporting, Cross-browser Testing
IT Helpdesk:	OS Installation (Windows/Linux/macOS), PC Hardware Assembly & Upgrades, Network Configuration (LAN, Wi-Fi, Routers, IP/DNS)
Tools & Support:	Remote Support (UltraViewer, TeamViewer), Printer/Scanner drivers, Git, JIRA/Excel (Bug Tracking), basic Postman (API Testing)
Languages:	TypeScript, JavaScript, HTML/CSS, SQL (PostgreSQL, MySQL), basic Python

TESTING EXPERIENCE IN CAPSTONE PROJECTS

09/2025 – 03/2026

TechStore (Vanfio) — E-commerce Platform (Development & Testing Role)

Role: **Full-Stack Developer**

`Next.js` `React` `NestJS` `PostgreSQL` `Prisma ORM` `Redis` `Postman` `Jest` `E2E Testing`

- **Functional & Security testing:** Covered pg_trgm search, rotating JWT & TOTP MFA auth guards, RBAC roles, rate limiting, and the cart → voucher reservation → order → MoMo Webhook flow.
- **Concurrency & row-lock edge cases:** Simulated simultaneous checkouts on final stock items and verified PostgreSQL `SELECT FOR UPDATE` transaction row-level locks prevent overselling.
- **Idempotency & UI verification:** Tested double-click order submission, repeated HMAC-SHA256 payment webhook callbacks, responsive layouts, Socket.IO live support reconnects, and Jest test suites.

03/2024 – Present

POMI Milk Tea — Real-Time F&B System (Development & Testing)

Role: **Backend Developer**

React | Express.js | MySQL | Flutter | Socket.IO | Manual Testing | Network Edge Cases

- **Real-time Sync Testing:** Formulated manual test plans to verify live order synchronization flows between kitchen screens (React), cashiers, and mobile client apps (Flutter).
- **WebSocket Reconnect Testing:** Simulated and caught duplicate order events appearing on the kitchen interface during WebSocket (Socket.IO) abrupt reconnections. Successfully introduced an event deduplication layer (order ID + last seen timestamp) to ensure strict data idempotency.
- **Cross-device Testing:** Rigorously executed functionality testing across native Android/iOS mobile environments (virtual & physical devices) and mainstream desktop/mobile Web browsers.

06/2026 – 07/2026

Other Testing & Development Projects

- **SVM Credit Prediction (2024):** Tested data validation pipelines, checked boundaries of preprocessing scripts, and analyzed prediction constraints of Machine Learning Support Vector Machine (SVM) models (limited due to lack of a real dataset for legal reasons).
- **OptiBot RAG System — KB-Harvest (06/2026 – 07/2026):** Built end-to-end RAG pipeline: scraped Zendesk Help Center via paginated API, cleaned HTML to Markdown, used SHA-256 delta sync for change detection, and uploaded to Gemini File Search. Automated daily via GitHub Actions + Docker.

EDUCATION

09/2021 – 03/2026

Engineer's Degree in Information Technology (Software Engineering)

HUTECH University — GPA: 2.86/4.0

- **IT foundation:** Completed coursework in Computer Architecture, Operating Systems, Computer Networks, and Databases, building foundational knowledge of hardware, systems, and network connectivity.
- **QA/QC foundation:** Trained in software testing processes, test-case design, functional testing, and structured defect documentation and reporting.
- **Leadership & activities:** Led teams across multiple courses; served as a class officer and Faculty Youth Union officer; organized and coordinated volunteer, nonprofit programs involving students from both the class and faculty.

CERTIFICATIONS & LANGUAGES

- **CEFR B1 English — HUTECH:** General English Test at Intermediate Level; examined Nov 8, 2025 and issued Dec 4, 2025.
- **Udemy — The Complete Flutter Development Bootcamp with Dart:** Dr. Angela Yu; 29 hours, completed May 19, 2026; Dart, Flutter UI, state management, and API integration.
- **Communication & Teamwork — HUTECH:** Completed Communication and Teamwork Skills; issued Apr 16, 2025; professional communication, team coordination, and problem-solving.
- **Udemy — The Complete Full-Stack Web Development Bootcamp:** Dr. Angela Yu; 62 hours, completed May 19, 2026; frontend, backend, REST API, and database foundations.
- **Udemy — 100 Days of Code™: The Complete Python Pro Bootcamp:** Dr. Angela Yu; 57 hours, completed Aug 15, 2026; Python, OOP, automation, web scraping, and scripting.

EXPERIENCE

12/2025 – 06/2026

IT Helpdesk / Manual Tester / Software Deployment

EMPOWER SC

- **System operations:** Supported the Dimchan All-in-One ecosystem for F&B and retail businesses across sales, POS, printing, and operational management workflows.
- **Request handling:** Identified software, device, or connectivity issues from support requests and guided users toward appropriate resolutions.
- **Manual testing:** Executed end-to-end tests across web/mobile applications and validated POS terminal and printer compatibility in real operating scenarios.
- **Tickets & coordination:** Documented failure conditions, symptoms, and reproduction steps; submitted structured tickets and supplied additional context during development investigation.
- **Client deployment:** Configured devices and deployed software on-site, troubleshooting handover issues to bring systems into operational use.

08/2025 – 10/2025

IT Support & System Deployment Specialist (Project Contract)

HCMC Digital Transformation Center (DXCENTER)

- **Business Process Training (First 2 Weeks):** Recruited for web technical expertise under a municipal digital project; mastered end-to-end workflows of 2 public portals (motcua.tphcm.gov.vn, qlvb.tphcm.gov.vn).
- **Field Stationed at Binh Khanh Ward (1.5 Months):** Directly trained civil servants and citizens on both portals; handled user inquiries, reproduced edge-case bugs, and dispatched structured bug reports to L2 Developers.
- **Hardware, Networking & Digital Signatures:** Troubleshot PC hardware, office LAN networks, and configured digital authentication/signatures; fulfilled deployment contract milestones.
